

## Join our ambitious team at botFELLOWS!

Are you ready to join an exciting journey of innovation and growth? We are a dynamic and rapidly expanding startup looking for exceptional individuals to join our team. If you are passionate about making a difference, thrive in a fast-paced environment, and are eager to contribute your skills to a cutting-edge company in the field of robotics then this opportunity is for you.

Our unwavering commitment to fostering a culture of innovation, collaboration, and personal growth set us apart. We value creativity, initiative, and a willingness to push boundaries. Every idea is welcomed, and every voice is heard. We believe in empowering our employees to take ownership of their work and make a real impact on our success.

We're currently seeking a committed and motivated team member to contribute significantly to the development of our startup. Joining us as a **Business Administrator**, you will play a crucial role and support the company in the developing of internal finance and controlling structures. Located in the heart of Chemnitz, botFELLOWS is a dynamic company revolutionizing the deployment of robot systems in industrial environments. We're dedicated to introducing cutting-edge solutions for flexible and safe robotics. Powered by a diverse team with backgrounds in software development, robotics, safety engineering, and marketing, we fearlessly challenge the status quo of industrial robotics. Our extensive experience gained from close collaboration with industry while working at Fraunhofer reinforces our vision and the potential to significantly impact by providing cutting-edge solutions for flexible and safe robotics.

We value your skills and experience. We strongly welcome all applicants as long as they meet the following requirements:

- Degree(s) in business administration or similar
- 3-5 years of working experience, preferably related to robotics and automation
- Excellent communication skills in both German and English, both written and oral
- A strong interest in diving into the world of robotics and automation

However, if you are highly motivated and you believe this role aligns with your skills and interests, we encourage you to apply, regardless of not meeting every qualification. Your application matters to us, and we look forward to hearing from you!

Traits that attract us include:

- Strong creativity and a proactive mindset
- Self-starter mentality, capable of working independently and collaborating effectively in a team
- Can-do attitude with a focus on task completion and the ability to see the bigger picture
- Open-mindedness and adaptability in a multicultural environment
- Eagerness to learn and grow with us, fostering curiosity
- Ability to navigate conflicts respectfully
- Analytical problem-solving skills, employing a straightforward approach to complex issues
